## Summary

Dear All, Thank you for visiting my profile.

I hope you all are doing well and keeping safe.

I am a Pre Final year Computer Engineering Student.

When I was a kid I was always thrilled to know about the computers. The workings and how it did so many things in just that one "Box". So I started to know about them and started to learn them and thought to make it my career. With this I have gained Knowledge in C, JAVA, JAVASCRIPT, PYTHON, DBMS, Data structures and a good grip on soft skills required for the industry. And am Interested in full-stack web development opportunities,
